

HEALTHY MINISTRY IS
TEAM BASED

PASTOR LED

HEALTHY

FAITH AVENUE

Christian discipleship is the disciplined habit of thinking and acting in Christ. Discipleship is growing closer to Christ and more like Christ, and deeper into Christian community with other believers.

Discipleship

The calling on the ministry to create spaces where discipleship and spiritual growth can be nurtured. The avenue where community is built through relational & spiritually formational activities.

PROCESS

Community Building

Connect Groups

Cross-Generational Care

Looks like:

- One-on-one mentoring (not limited only to the Faith Avenue).
- Retreats
- Camps
- Church Picnics/BBQ
- Game Nights

Contextualize:

- Corporately do we spend time with my church family? (BBQ, Game Night, etc.)
- Are all age groups being appropriately served?
- Do I have a pathway to engage and disciple new believers?

Looks like:

- A space for relationship building and spiritual growth.
- Smaller gatherings where bonding can occur and life on life discipleship happens.

Contextualize:

- What types of groups do my congregation and target community need?
- Are we digging deep into the written and living Word of God?
- Are facilitators and hosts being developed?

Looks like:

- In home visits with guests and members.
- Elderly Care & Visitation Ministry.
- Family-based Youth Ministry.

Contextualize:

- Who makes up our congregation? What are the needs of the different life stages in our congregation?
- How are we investing in and building relationships across generations within the life of the church?

Reflect

Healthy Church provides the opportunity to strengthen relationships.

Are we deepening relationships through shared activity?

Are we making time for interaction between Sundays?

Are we deepening relationships with Christ across generations?
